SELECTMEN'S REPORT.

THE Selectmen respectfully submit to the Town their report of its financial condition for the year 1852-53, terminating on the last day of January, 1853 — being the fifteenth of the series of Reports of Receipts and Expenditures of the Town.

The amount of money received from various sources, as will appear in the report of the Auditors, is \$48,137 85.

Of the above amount, there has been expended for the poor in the Alms House, the sum of \$2,279 59, of which a considerable portion is for keeping teams, and for labor done at different parts of the Town.

This Institution fully sustains its good reputation for health and comfort, and much credit is due to the present Superintendent and Matron for their unwearied attention and kindness to those under their care. The number of inmates on the 1st day of February, 1852, was 24. During the year, 39 have been admitted, 25 have been discharged, and 5 have died; leaving 33 at the present time, 17 of whom are *foreigners* or of foreign parentage.

In addition to the above, many have been admitted for a day or two, either by being confined in the cells or as travellers. No place has been selected for a new Alms House; and as the several State Alms Houses are in progress of building, to which foreign

paupers are to be removed, it is deemed unnecessary to look for a new site at present.

During the past year, the number of persons out of the Alms House who have applied for assistance has been considerably increased over that of former years. The overseers have given aid to many who were considered as deserving; and to others, when it was for the interest of the Town so to do.

The number of Lunatics at Worcester Hospital, considered as belonging to the Town, is *three*; one of whom (having been there since 1848) was supposed to have belonged to another town, and his account for board has not as yet been paid; but by a late decision of the Supreme Court, this Town has become responsible for his support.

The Highways will show for themselves that much labor has been done on them during the past year, and that there is still more to do. New roads are being made every year, and we now have about 37 miles of roads to repair. Our facilities for obtaining suitable material are becoming less every year, or the distance for carting it is increased, all of which, with the repeated calls for additional side-walks, render our Highways an important item in our expenses. The Board would therefore recommend that the sum of \$4,000 be appropriated for the repairs of the Highways, and for making and gravelling side-walks, the present year.

The subject of repairing Berry Street was, at the last March meeting, referred to the Selectmen. Having viewed said Street, and finding that it was almost impassable from its rocks, trees and bushes, thereby rendering the Town liable for damage in case of acci-

dent, it was thought expedient to put it in a passable condition, and they have caused this to be done at an expense of \$150.

Upon an application of the Selectmen of West Roxbury, to raise and repair a short street at its junction with Brush Hill Turnpike, near the residence of the Rev. Wm. E. Abbott, after viewing the same, and conferring with the parties concerned therein, it was deemed advisable to discontinue a portion of said street, in front of Mr. Abbott's land, he paying the Town the sum of \$100. The other part of said street has been raised and repaired; and on Mr. Abbott's paying that sum, we would recommend that that section of the street be discontinued.

A new Engine House for Engine No. 3, has been erected, near the residence of Capt. Thomas Baldwin, on land belonging to Mr. Henry Clark, a lease of which is on file at the Selectmen's Room.

At the last April meeting, the Town voted that the Selectmen be empowered to shingle and otherwise repair the Town House. No definite sum was appropriated for that purpose; but in accordance with said vote, they did as much as they felt authorized to do—the whole of which, including piazza, out-house, painting, settees, lamps, &c., has cost the sum of \$720. Some further improvements are desirable, such as ante-rooms, &c., which we submit to the consideration of the Town.

There was appropriated the last year, the sum of one hundred and fifty dollars to improve the Burial Grounds. That sum appears insufficient for taking care of the trees and shrubbery, and clearing the walks and carriage ways. We would therefore

recommend that the sum of two hundred dollars be appropriated the present year for this purpose ; and we would also recommend that the Town take measures to enlarge the present lots, or procure another lot for a cemetery.

On petition of several persons, we take this opportunity to bring before the Town the importance of inclosing the common land on Meeting House Hill, or such portion as may be thought best, for the improvement of that part of the town.

During the past year, in consequence of several burglaries having been committed in the Town, the Selectmen have employed one person to patrol a portion of the streets by night. It must be obvious to all, that bordering on the city as we do, it will become necessary, for the protection of our houses and property, to provide a sufficient number of permanent night watchmen. While on duty, they could assist the police if necessary, and otherwise afford our citizens that protection which they appear to demand.

We would again call the attention of the Town to the furnishing of lamps for some of the most prominent corners of our streets. We would also take this occasion to call the attention of the Town to the recent robbery of the shop of Mr. William F. Pope, and the daring intrepidity manifested by several of our citizens in securing two of the robbers, and would suggest that the Town should compensate them for their services on that occasion.

OLIVER HALL,
WILLIAM TOLMAN, } Selectmen of
ROBERT VOSE, } Dorchester.

Dorchester, January 31, 1853.

BOARD OF HEALTH.

THE Board of Health have attended to their several duties according to law. Their action has been limited to inspection and advisement; they have found no occasion for direct interference. They heard such complaints as were brought before them; they inspected such places as were supposed to be seats of filth or might be sources of disease, or in any way injurious to the health of the inhabitants, or the neighborhood. They inquired into the manner of burial in the several cemeteries in this town, and they found the laws of the Commonwealth in general complied with.

The year 1852 was one of remarkable health; no epidemic, endemic, or contagious disease has prevailed in the town or any of its parts. The Board therefore found no occasion for interference with the condition of houses or the arrangement of families; and although there were some houses much more crowded with inhabitants than was advisable for the health and vigor of themselves and their children, and some of these would be much improved by better means of ventilation, by better habits of cleanliness within, and by drainage and removal of their offal without, which might in unfavorable seasons be productive of disease, and without doubt in any season prevents the development and enjoyment of full and complete health and strength, still, as no unusual sickness was found in these houses and localities, they took no active measures for their improvement.

Yet as some dwellings are filled with inhabitants, where whole families occupy a single room, and each room has its family, and there is a tendency of our foreign population thus to collect and crowd themselves together, the Board of Health would earnestly advise that the owners of these houses see that they are provided with every means of internal and external purification, that the rooms be well ventilated, and that proper facilities for removal of all offal and filth be given to the inhabitants, and that they be required to keep their rooms and their premises in such a state of neatness as to prevent the generation of any diseases from those sources even in sickly seasons ; and that these poor people, whose health and strength constitute their only capital and means of living, should enjoy every opportunity and advantage of having these in their best condition.

They would also recommend that the Town pursue the same system as to roads and streets, as has been lately adopted. The roads should be sufficiently wide to admit of free ventilation when they shall be compactly built upon, and of such grades as to allow of perfect drainage, and thus the health of this future city will be so far provided for.

By order of the Board.

FIRE DEPARTMENT.

Chief Engineer.—EDWARD JONES.

Assistants.—CHARLES HUNT, SAMUEL J. CAPEN, SYLVESTER
H. HEBARD, GEO. L. FISHER.

REPORT OF THE CHIEF ENGINEER.

To the Selectmen of Dorchester.

GENTLEMEN,—The fourth annual report of the condition of the Fire Department is respectfully submitted to your consideration.

During the year ending Jan. 31, 1853, the Department was called out by alarms of fire ten times,—five of which were out of town. Of the others, two were extinguished with buckets, and four required the use of engines. The services of four of the Roxbury Engine Companies at one fire, were of appreciated value. Assistance upon one occasion was rendered the Boston Fire Department.

The estimated loss for the year was \$1,700 ; and the insurance, as far as ascertained, \$500.

The houses are in good repair, except the one occupied by the Fountain Company, which will need shingling the present year.

The several companies of the Department are deserving of commendation for promptness in the discharge of duty, and for faithfulness in keeping the Engines, the apparatus, and other property entrusted to their care, in good condition.

The Engineers have expended for new hose, repairs, furniture, &c., the sum of \$609 35.

Four companies have been in commission since May 1, 1852, as follows :

Fountain Co., No. 1.—*Foreman*, Joseph W. Sloan. *Asst. Foreman*, Geo. S. Esty. *Clerk*, Gustavus E. Haynes. *Steward*, Edwin A. Smith.

Torrent Co., No. 3.—*Foreman*, Moses H. Warren. *1st Asst. Foreman*, Seth D. Durell. *2d Asst. do.*, Nath'l Dennett. *Clerk*, Geo. Bridgham. *Steward*, David Ripley.

Independence Co., No. 5.—*Foreman*, Joseph C. Robinson. *Asst. Foreman*, Andrew Collins. *Clerk*, David F. Patch. *Steward*, Wm. Adams.

Tiger Co., No. 6.—*Foreman*, James H. Upham. *Asst. do.*, Andrew Sumner. *Clerk*, Charles A. Upham. *Steward*, Ralph Ware.

Fires, Alarms, &c. from February 1, 1852, to February 1, 1853.

The Foremen of the several Engine Companies are required to return to the Chief Engineer, in the month of April, "an inventory of all the property entrusted to their care and belonging to the Town."

Respectfully submitted,

EDWARD JONES.

VITAL STATISTICS OF DORCHESTER.

Collected and prepared from Authentic Sources.

BY EDWARD JONES.

The Town of Dorchester was incorporated in 1630.

In 1763, a census was ordered to be taken in 1765. The returns give the following result : 204 houses and 245 families ; 292 males and 284 females under 18 years of age ; 343 males and 404 females over 18 years of age—making the number of inhabitants at that time, 1323.
